## This isn't our story, it's someone else's; Chris'.

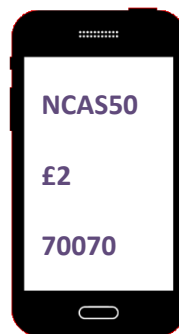

After discovering archery Chris became a major part of the archery community in Northamptonshire and the surrounding area. As well as running shoots and helping others whenever they needed advise or support, he worked incredibly hard as the County Chairman.

To remember Chris and help raise much needed funds for Cancer Research UK, we are holding an endurance archery event on the 18<sup>th</sup> July at the Daventry and District Sports Club rugby pitch. We will be shooting from 6am all the way through until 9pm (*regardless of the weather*).

You don't need to have known Chris to donate. You just need to feel that this is a worthy cause; please help us to beat cancer - maybe one of your pounds will be the ONE that is needed to rid the world of this terrible disease for good?
