Instructions for Remote County Competitions

To allow county competitions to take place during these unusual times, a website has been set up to allow members of county teams to submit scores for matches.
Due to the remote nature of these matches, scoring will be based on trust. As such, you will be allowed to score your own arrows for these matches and you will not be required to shoot on a particular date or time, but there will be a range of dates that you will need to shoot your scores within - so make sure they are submitted in time.
These instructions explain how to sign up on the website and how to submit scores.

Good luck in all your matches, and have fun!
